

*Department of World Economy, St. Petersburg State University, Russia
in the framework of the Marie Curie Initial Training Network programme
"Power and Region in a Multipolar Order" (PRIMO) invites you to take part in*

**Methods Training Workshop: The role of quantitative data in qualitative research on
"Power and Region in a Multipolar Order"**

The workshop is the manifestation of the acknowledgement that many qualitative research designs can benefit from, and sometimes even depend on the integration of quantitative data. Combination of qualitative and quantitative sources of information and evidence involves theoretical and conceptual problems, which can lead to incoherence. Hence, lectures and practices in this workshop explore different ways to combine qualitative and quantitative data in order to evaluate and strengthen the explanatory power of theories.

Audience: PhD students and young researchers on PRIMO

Content: The workshop contents lectures, practical exercises and discussions. The first part of the workshop focuses on different quantitative methods and their involvement in the research design. The second part considers the combination of quantitative and qualitative methods in research, conference presentations and discussions on research development.

Working language: English

The workshop will be delivered by leading professors of St. Petersburg State University and other Russian Universities as well as international experts. The key speakers will be: Prof. Zhang Jun, Director of the Institute of Economics and China Center for Economic Studies, Fudan University; Prof. Robert Kappel, the GIGA; Prof. Cord Jakobeit, the University of Hamburg; Dr. Artem Prokhorov, University of Sydney and CIREQ.

Duration: April 20-24, 2015

Location: Faculty of Economics, St. Petersburg State University, St. Petersburg, Russia

ATTENTION!

**On the 20th, 22nd and 23rd of April the workshop takes place at 62, Chaikovskogo str.
On the 21st and 24th of April he workshop takes place at 21, Tavrisheskaya str.**

The PRIMO programme unites universities from Brazil, China, Germany, India, Portugal, Russia, South Africa, Turkey and the UK, as well as non-academic institutions and develops innovative research training in the field of International Relations, in particular with respect to the growing importance of Brazil, Russia, India, China, and South Africa (BRICS) in international politics and the global economy.
